

140 AMP MINI ARC WELDER (230V)

JEFARC140M-230

- Insulated Gate Bipolar Transistor (IGBT) technology
- Integrated smart fan cooling system with thermostat
- Included Voltage Reduction Device (VRD) for improved electrical safety
- Arc force / MMA welding
- Hot start
- Included 2m earth clamp lead and 3m electrode holder.
- Generator friendly

IN ACTION

- Input: AC 230V
- Output: 20-140A
- Duty Cycle: 60% @ 30°C, 20% @ 40°C
- Frequency: 50Hz
- Electrode Ø: 1.6 - 4.0mm
- Protection Class: IP215
- Weight: 3.2kg
- Dimensions: 260x185x110mm

Includes:

- Electrode holder
- Earth Lead

FITTED WITH 13A PLUG
